Online Availability

DWS1 Welcome Letter & Course Introduction

The [Welcome Letter](#) and [Course Introduction](#) explain the way the course is set up and will answer some FAQ

Course Calendar

This [Course Calendar](#) should give you an idea of what we are covering each week and can serve as a handy tool when managing your time. Note that it is only a suggestion and that your schoolwork schedule may be different.

Rubrics

Rubrics describe the expectations for your assignments and detail how your work will be evaluated in this course. They are available in the Resource section of each graded assignment.

Alternative Submission Method

If an assignment can not be submitted through FSO for any reason, please email your zipped assignment to fs.cvincze@gmail.com. Keep in mind that you should NOT send attachments with your emails to my Full Sa account as they will get quarantined as spam.

Course Related Jobs

This class will this prepare you for the following jobs in the web design and development industry: web design

Helpful Tips

When you receive your assignment grades, *please read the instructor feedback*. The feedback I give you will help you correct mistakes and/or inform you of omissions. Please make sure you are not repeating your mistakes or leaving out requirements in future assignments.

This class will be challenging for most students, so follow the instructions and rubrics carefully, read your feedback, and ask for help when you need it.

FSO Support is great for technical issues with your laptop or FSO, but they may not be familiar with this course or its topics so please contact me directly for anything outside of technical problems.

Good luck and let's have a great month everyone!
